Series 1000 Single-Hung Tilt-Sash Window

- Integral nail-fin with 1-3/8" setback
- Quality crafted assembly delivers valuable thermal efficiency and reduces dust penetration
- Tilt latch allows bottom sash to tilt-in or be removed for safe, easy cleaning of window from inside the home
- Dual cam-locks enhance security and assure weather-strip compression
- Precision cut aluminum frame and sash components secured with plated steel screw fasteners to form a strong, durable assembly
- Integrated pull rails on operable bottom sash provides an easy open and close action
- Hollow aluminum extrusions add strength and enhance structural integrity
- Warm-edge insulated glass reduces condensation and improves thermal performance
- Weather-striping at interlock reduces air and water infiltration
- Full thermal-break design in main frame and operating sash provides superior energy efficiency
- 15/16" insulated glass provides superior thermal efficiency
- Sloped-sill allows for easy water run-off
- Sill features a staircase design for optimum weep system
- Available in White, Bronze and Sandstone colors
