Series 8000 Horizontal Rolling Window

- Rolling sash lifts out for safe, easy cleaning from the inside
- Double, steel reinforced interlocks provide exceptional structural integrity/strength and comforting security
- Positive action cam-lock helps provide a weather-tight seal and added security
- 7/8" insulated glass provides energy saving, thermal efficiency
- Multi-chambered frame assembly improves thermal performance and helps enhance sound absorbency
- Extra heavy-duty wall thickness engineered into vinyl frame and sash for superior durability and thermal performance
- Dual, concealed drainage system keeps rain where it belongs
- Integral, prepunched mounting flange targets proper nail location for quick, easy installation
- Warm-edge, insulated glass technology reduces condensation up to 80%
- Equal glass size provides visual symmetry in the use of internal grid patterns
- High-pile weatherstrip at interlock prevents air and dust infiltration
- Commercial grade structural integrity qualifies this window for use in a wide variety of construction applications
- Commercial grade, heavy-duty construction is 100 MPH wind-zone rated for exceptional performance in extreme weather conditions
- Adjustable tandem wheel and axle assemblies assure smooth ease of operation and even reveals
- Precision-mitered/fusion-welded corners block moisture, resists rot and seals out weather
- Choice of White or Almond color options
