

Impact-Resistant Sliding Glass Doors

Impact-Resistant Sliding Glass Doors feature a 7/16" thick laminated tempered glass construction that screens out more than 99% of ultraviolet light that can damage the interior of your home. It also reduces outside sound transmission for a quieter, more comfortable home environment, and reduces solar energy transmittance to reduce cooling loads.

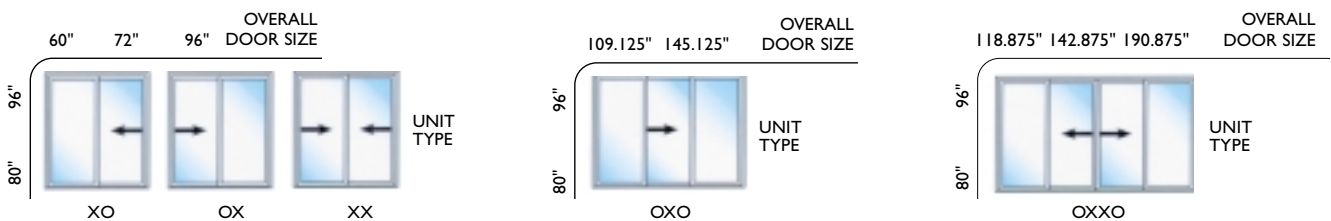

High-Performance Features

- Passes small and large missile impact testing
- Meets stringent South Florida building codes
- Achieves a Design Pressure Rating of 70 psf/80 psf
- Uses special pre-finished aluminum alloy 6063-T6, which will not warp, crack or rust

Options

- Insulated Glass models
- Low-E Glass
- Numerous glass color options
- Overall sizes up to 16' x 8'
- Decorative interior muntins

Available in the Following Sizes:

3600 Port Jacksonville Parkway ■ Jacksonville, FL 32226
