TW-1 Single-Hung Window

- 9/16" Insulating glass in TW-1 Series provides energy saving thermal efficiency
TW-4 Series is single glazed with DSB, or 3/16"
- Optional 13/16" Colonial muntins sealed internally on TW-1. Not available on TW-4 (not shown)
- Half-Screens are a standard feature, allowing ventilation while protecting against insect infiltration (not shown)
- Rigid vinyl glazing bead at exterior bottom and interior top reduces air and water infiltration and enables easy replacement of glass unit from inside
- Precision cut aluminum frame and sash components form a strong, durable assembly
- 2-3/8" Frame depth provides a strong, heavy construction
- Block and tackle balance system assures ease of opening and closing
- Secured vent latch allows for secure night ventilation and acts as secondary lock in the closed position
- 1-3/16" Sash depth provides structural integrity
- Operable bottom sash tilts-in for easy cleaning and operation
- Full perimeter sash fin seal weather-strip and vinyl flap at sill reduces possibility of air and water infiltration
- Integrated lift rail for easy open and close action of operable sash
- Automatic sill latch provides comforting security and keeps sash unit tight and secure and helps seal out the weather. (Single or dual latches as width requires)
- Available in White or Cream

Extruded nail-fin on all frame sections for fast easy installation in frame construction

Full perimeter external flange for ease of installation in cinder block construction

Available in either Fin or Flange Construction

TW-4 – Single-Hung Windows with Single Glazing
TW-1 – Single-Hung Windows with Insulated Glass System

- Glass options include tinted and turtle glass in TW-4 Series, and tinted, turtle and Low-E Glass in TW-1 Series
